Dear Ms. Flint:

Thank you for taking time to speak to the professional membership of HAPPEN as part of the meeting held on April 28 at the Burlington Art Centre

Your presentation "**Oasis for Spirit Being**" was especially well received by our members and your professionalism certainly captivated the audience's attention. Your ability to present the subject with excitement, warmth and enthusiasm also added to the presentation, and gave us much to consider. Your considerable experience in public speaking was clearly evident in the way in which you took a difficult subject and addressed it in a captivating and enjoyable fashion.

On a personal note, it was a pleasure meeting you, and your presentation was most interesting. I have always believed that we need to stretch ourselves, to reach out for things beyond our grasp and to grow as human beings. Your presentation allowed us to experience that, as well as a chance to pause from the hectic pace of daily life. Thanks for allowing us to do that.

Once again, thank you for taking the time to speak to the HAPPEN group. It is only with the support of professionals like you that HAPPEN members can make positive changes in their outlook and careers. We look forward to seeing you again soon, and wish you all the best in future.

Yours very truly,

Greg Brown
